Forecast for Wednesday 23 Feb 2022

Weather: Cloudy during the early hours and through the morning with outbreaks of rain, heavy at times with snow above around 900 m. Further outbreaks of rain and snow through the day with the snow level lowering to around 400 m during the afternoon. The rain and snow will turn more showery from the north during the later afternoon and evening with snow to lower levels. Some heavy showers likely during the evening with hail and a risk of thunder.

Chance of cloud-free hill tops above 800m: 10 % or less becoming 30 % later in the afternoon.

Low Cloud and visibility: Extensive cloud with base around 300-400 m with some patches down to 200 m around coastal ranges. Turning more patchy later in the afternoon and during the evening with bases lifting to around 600 m, but suddenly falling onto the lower slopes in the snow showers with whiteout conditions and blowing snow.

Met Office Aberdeen Meteorologist's View

Winter conditions will return to all levels, with blizzard like conditions at times leading to a risk of disorientation. Frequent lightning is possible later, especially in the west.

Forecast for Thursday 24 Feb 2022

Weather: A day of sunny intervals and snow showers, heaviest and most frequent in the west with hail and thunder at times. Showers perhaps merging into longer sells of snow at times.

Maximum wind: Southwesterly 40 gust 50 decreasing 30 gust 40 mph later in the afternoon.

Chance of cloud-free hill tops above 800m: 30%

Low Cloud and visibility: Cloud base variable and changing rapidly in the snow showers. Cloud fairly extensive with baes 500-700 m, but falling rapidly onto the lower slopes as the showers pass through with whiteout conditions and blowing snow. Excellent visibility between the showers, mainly towards the Trossachs where the cloud will be patchier.

Temperature: **Glens:** zero rising to plus 5
At 800m: Minus 4
Freezing level: 100-200 m, rising 200-400 m
